# DANILA STEPANIDENKO

DevOps Developer

## PROFILE

I'm middle Developer from Moscow.  
I am truly passionate about my job/profession, and I'd like to constantly enhance my skills among professionals with a team that values quality, productivity and code cleanliness. Expect a lot of responsibility, motivation, and commitment from me.

## WORK EXPERIENCE

### Sber

Middle DevOps Engineer

Sep 21 - Oct 22

After the internship, I got a job on the staff. Here I performed various tasks related to configuring Zabbix/Grafana monitoring, certificates for services, CD/CDP release lifecycle, server administration, and other reliability maintenance tasks

### Sber

Intern DevOps Engineer

Apr 21 - Sep 21

This is my first internship. I wrote and finalized scripts for an automated Fraud monitoring system. I got the skills to work with Jira, Jenkins, Ansible, Bitbucket, and other systems. In particular, I got very useful skills for working in a team
